

KILLER SPECIES: MENACE OF THE DEEP

SUMMARY

A 12 year old Emmet Doyle is dragged to southern Florida after his father is assigned to Everglades national park. Emmet thinks things can't get any worse after losing his mom, moving to a new place, and being the new kid at school in the middle of the school year, but nothing could prepare him for what he would encounter. What he will encounter in the Everglades will shape his new life in Florida forever and might make him rethink about why they really called his dad to the Everglades.
