

# The Witches

Real witches don't ride broomsticks. They don't dress up in black silky cloaks and black pointy hats. They dress up as nice, pleasant, ordinary ladies. Witches hate children, they despise them. They'll cast any spell to get rid of them. In this book you'll know when it's a real nice little old lady and a terrifying witch. Meet the hero and his grandma that prepares him for an encounter. This spine-chilling book will get you to read for hours and re-read.

## Book review

I gave this book five stars because when I read it, which was given to me by an older friend, I kept reading it everywhere and anywhere I went and I think I also reread it which was amazing. Just the title got me into reading this book because you never know what witches maybe up to next.
